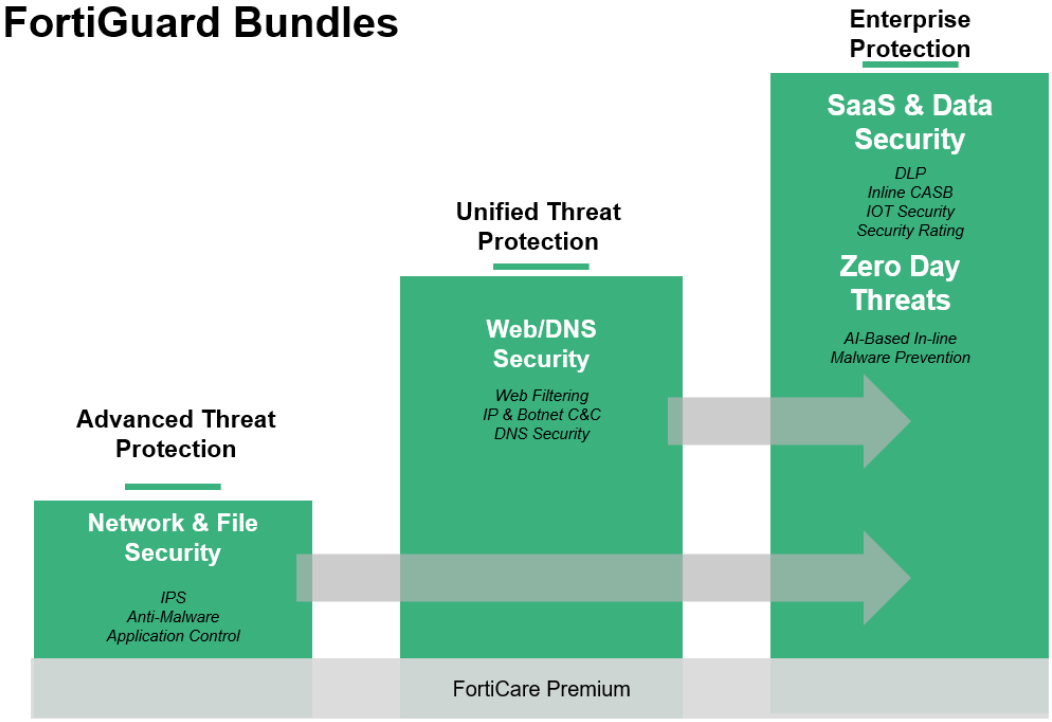
ORDERING GUIDE

FortiGuard AI-powered
Security Service Offerings

FortiGuard AI-powered Security Services offer a comprehensive array of security capabilities to protect applications, content, devices, network, and web while also providing security technologies for NOC and SOC teams.

You can choose our strategically curated high-value bundles tailored to meet your unique business requirements or customize your security strategy by ordering individual services à la carte.



All bundles include **FortiCare Premium Services** featuring 24×7×365 availability, 1-hour response for critical issues, and next business-day response for non-critical matters.

CORE ELEMENTS OF FORTIGUARD BUNDLES

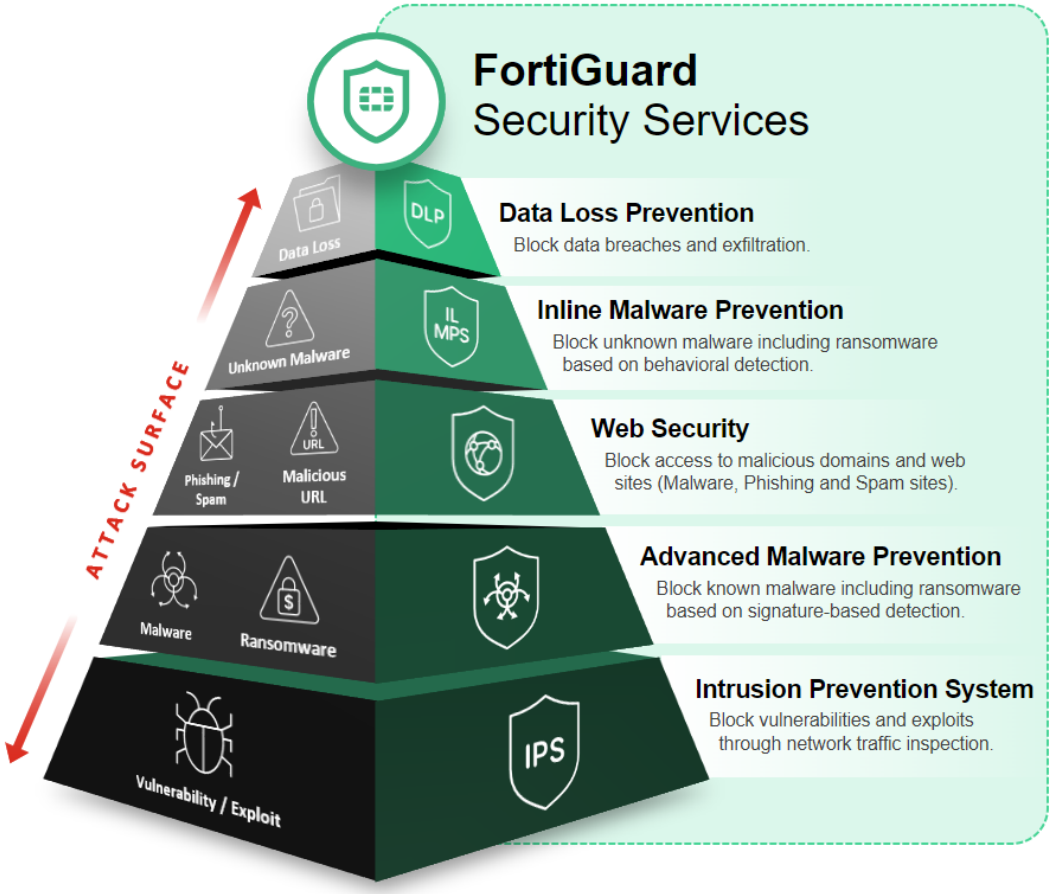
Network and file security: consists of IPS to monitor network traffic, analyzes for malicious content, and uses AI/ML for real-time threat detection with virtual patching, while antimalware offers real-time defense against all threats, enhances protection through threat intelligence, and provides multilayered security. Application Control enhances security compliance and offers real-time application visibility.

CORE ELEMENTS OF FORTIGUARD BUNDLES

Web/DNS security: offers Web Filtering which stops web-based threats, blocks malicious sites and content, and checks email links for potential threats. IP reputation and antibotnet prevents botnet communication, blocks DDoS attacks from known sources, and offers "set and forget" functionality. DNS security defends against DNS attacks, encrypts DNS traffic for user privacy, and ensures DNS reliability with FortiGuard filtering. Additionally, it Includes DNSSEC, DNS tunneling blocking, protection against DNS flood attacks, and defends against DoS/DDoS attacks.

SaaS and data security: consists of DLP, which ensures data visibility and protection across networks, clouds, and users, simplifying compliance and privacy implementation while inline CASB protects data in motion, at rest, and in the cloud, enforces major compliance standards, and manages account and user threats and cloud app usage. The Attack Surface Security Service provides security and compliance assessments and risk ratings and discovers and classifies IoT devices and remediates their vulnerabilities.

Zero-day threat prevention: provides inline malware prevention to analyze and filter unknown files in real time, offering subsecond protection against zero-day threats across all NGFWs. The built-in MITRE ATT&CK® matrix accelerates investigations, reducing breaches and security overhead. It focuses on comprehensive defense by blocking unknown threats while streamlining incident response efforts.



When it comes to choosing the right mix of services to secure your organization's attack surface, where do you start and what comes next? Use the pyramid as a guide for your selection of the right bundle to address your organization's requirements from the vantage point of securing your organization against types of threats appropriately matching the security coverage of your attack surface your organization needs.

PRODUCT OFFERINGS

For FortiGate hardware, virtual machines, and software-as-a-service (SaaS):

	INDIVIDUAL	BUNDLES		
FortiGuard Security Services	A La Carte	Enterprise	UTP	ATP
Intrusion Prevention System (IPS)	✓	✓	✓	✓
Advanced Malware Protection (AMP)	✓	✓	✓	✓
Antivirus	✓	✓	✓	✓

ORDER INFORMATION

The following provides an example for the FortGate 60F:

Bundles

	SKU
Hardware and Service Bundles	
FG-60F plus Enterprise Bundle	FG-60F-BDL-809-DD
FG-60F plus UTP Bundle	FG-60F-BDL-950-DD
Service Bundles	
Enterprise Bundle	FC-10-0060F-809-02-DD
UTP Bundle	FC-10-0060F-950-02-DD
ATP Bundle	FC-10-0060F-928-02-DD

A La Carte

	SKU
Hardware and Support	
FG-60F	FG-60F
24×7 FortiCare Support	FC-10-0060F-247-02-DD
A La Carte - FortiGuard Security Services	
IPS	FC-10-0060F-108-02-DD
AMP	FC-10-0060F-100-02-DD
Web Security	FC-10-0060F-112-02-DD
AI-based Inline Malware Prevention	FC-10-0060F-577-02-DD
IOT Detection and Virtual Patching	FC-10-0060F-231-02-DD
OT Signature	FC-10-0060F-159-02-DD
A La Carte - NOC/SOC Services	
FortiGate Cloud	FC-10-0060F-131-02-DD
FortiAnalyzer Cloud	FC-10-0060F-585-02-DD
Managed FortiGate (NOC)	FC-10-0060F-660-02-DD
SOC-as-a-service (including FortiAnalyzer Cloud)	FC-10-0060F-464-02-DD
Security Fabric Rating and Compliance Service	FC-10-0060F-175-02-DD
FortiConverter Migration Service	FC-10-0060F-189-02-DD
FortiGuard Bandwidth Monitor Service	FC-10-0060F-288-02-DD
Frequently Ordered Together	
FortiDeploy (order 1 unit per Purchase Order to route all devices to FortiDeploy ZTP portal)	FDP-SINGLE-USE
FortiCloud Premium	FC-15-CLDPS-219-02-DD
FortiAnalyzer Cloud Log Storage Add-on (FC1/FC2/FC3 = 5/50/500 GB/day add-on to cloud account)	FCx-10-AZCLD-463-01-DD

FREQUENTLY ASKED QUESTIONS

How does the ordering process work?

Consider in three parts:

1. **New Order. Do one of the following:**
   a. Order the hardware with a bundle that includes FortiCare and FortiGuard service
   b. Order hardware-only (a La Carte), and add FortiCare and FortiGuard services to it.

2. **Renew Services**
   You can order service renewals as bundles or a La Carte and applied to the device under the FortiCare account. Services will be extended based on the contract purchased.
   NOTE: Renewal services purchased with a FortiCare quote ID generated by Disti are automatically registered to the serial number.

3. **Add Services to an Existing Unit**
   Normally, customers want to align the end date, so that all components (existing and new) renew/expire together. This can be performed with a co-term. You can request a co-term quotation to your Fortinet-authorized partner.

NSE TRAINING AND CERTIFICATION

Security Operations (SOP)
Instructor-led learning explore the practical use of Fortinet security operations solutions to detect, investigate, and respond to Advanced Persistent Threats (APTs). Comprised of theory lessons and hands-on labs, this course will guide you to understand how to execute advanced threats, how threat actors behave, and how security operations handle such threats.

Web Application Security (WAS)
Instructor-led learning explore web application threats and countermeasures focused on Fortinet solutions. Comprised of theory lessons and hands-on labs, this course will guide you from the very motivations of attacks on web applications through to understanding and executing attack techniques,
recognizing such attacks, and, finally, configure Fortinet solutions to mitigate them.

- FT-CST-SOP– CST-SOP Training – 2days
- FT-CST-WAS– CST-WAS Training – 1 day

Certification Exams
No certification

Pre-requisites (SOP)
- You must have an understanding of the topics covered in the following courses, or have equivalent experience:
  - Basic knowledge of security operations
  - NSE 4 FortiGate Security
  - NSE 5 FortiSIEM
  - NSE 7 FortiSOAR Design and Development
- It is also recommended that you have an understanding of the topics covered in the following course, or have equivalent experience:
  - NSE 7 Advanced Threat Protection

Pre-requisites (WAS)
- You must have an understanding of the topics covered in the following courses, or have equivalent experience:
  - NSE 4 FortiGate Security
  - NSE 4 FortiGate Infrastructure
  - NSE 7 FortiSOAR Design and Development
- It is also recommended that you have an understanding of the topics covered in the following course, or have equivalent experience:
  - NSE 6 FortiWeb
  - NSE 7 Advanced Threat Protection
